

TECHNICAL SPECIFICATIONS

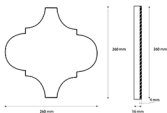

20x20 square tiles

size: 200x200x16 mm
weight: 1,35 kg / tile, 35 kg / m²
packing: 13 tiles / carton, 0,52 m²

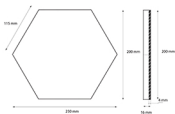

17x17 square tiles

sizes: 170x170x16 mm
weight: 0,97 kg / tile, 35 kg / m²
packing: 10 tiles / carton, 0,29 m²

„alhambra“ lantern shape tiles

size: 260x260x16 mm
weight: 1,00 kg / tile, 35 kg / m²
packing: 11 tiles / carton, 0,29 m²

hexagonal tiles

size: 200x230x16 mm
weight: 1,45 kg / tile, 35 kg / m²
packing: 11 tiles / carton, 0,29 m²

plinth skirting tiles

size: 100x200x16 mm
weight: 0,67 kg / tile, 35 kg / m²
packing: 26 tiles / carton, 0,52 m²

TECHNICAL SPECIFICATION

These are handmade tiles, therefore slight deviations in pattern, colour are inherent in production and considered normal and these deviations give the tiles their unique appearance and character.

Materials: portland cement, marble, stonepowder, sand, cement, water, pigments

Production technology: cement tiles are handmade using traditional method, coldpressing,

Area of use: indoors (outdoors only if foundation stays dry in all weather conditions). Can be used on wall and floor alike, and can be combined with floor heating.

Manufacturing tolerance: length and width: +/- 0,3%, thickness: +/- 2,0 mm

Top layer thickness: 3-4 mm

Wear measuring quantity: as marble or better

Laying: classic method with adhesive, 2 mm grout joints. The tiles must be impregnated!

Maintenance: acid free agent only

Storage: dry and frost free

Origin of country: Morocco
